S.V.Ayyappa Naik

Frontend Developer | React Developer | Web Developer

+91 9652155157 | s.v.ayyappanaik@gmail.com | Hyderabad, India | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Proactive and enthusiastic Frontend Developer with 4 years of experience **in React.js, React Native, Next.js, JavaScript, and TypeScript. Skilled in building reusable and responsive UI, Redux/Context API, REST API integration, performance optimization, debugging, and testing. Strong team player with a passion for learning new technologies, solving technical challenges, and** delivering quality solutions on time **in Agile environments.** Available to join immediately.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), Node.js, React.js, Next.js, Express.js, TypeScript, FastAPI, HTML5, CSS3, Tailwind CSS, Bootstrap,jQuery

AI & Agents: Generative AI, Creating AI Agents, AI Tutor & Quiz Generation, Prompt Engineering

Databases & Caching: MongoDB, indexedDB, Local Storage

Cloud & DevOps: Git, GitLab,CI/CD Pipelines , Deployment ,Android Studio, Xcode

Security & Auth: JWT, Authentication Flows ,Web Security

Payment Gateways: Payment Gateway Integration, WebView Integration

Observability: Application Logging, Debugging, TroubleShooting, Performance Monitoring

Architecture: React Architecture, Reusable Components, React Hooks, Redux, Context Api, REST Apis, Responsive Design

Leadership: Code Reviews, Technical Mentoring, Team Collaboration, Agile/Scrum, Sprint Planning

PROFESSIONAL EXPERIENCE

Frontend-Developer | *StrideFuture Technologies –* june 2022 – may 2026

- Developed and maintained responsive web applications using **React.js, JavaScript, HTML5, CSS3, Bootstrap, and EJS**, with a focus on reusable and maintainable UI components.
- Designed and implemented **reusable React.js and React Native components** to improve consistency, maintainability, and development efficiency across applications.
- Integrated **RESTful APIs using Axios** and handled API-driven application workflows including data retrieval, submission, validation, loading states, and error handling.
- Implemented application state management using **Redux and Context API** to manage shared state and support predictable frontend workflows.
- Translated business requirements and UI designs into **responsive, cross-browser-compatible interfaces** for desktop and mobile devices.
- Optimized frontend applications for **performance, responsiveness, usability, and maintainability**, including improvements to component structure and rendering behavior.
- Developed and maintained a **React.js application for monitoring application health and service availability**, including dashboard functionality and reusable monitoring components.
- Implemented **alert and notification workflows** in the application health monitoring solution to improve visibility into application and service status.
- Built scheduling and booking workflows for web applications, ensuring responsive interfaces and smooth user interactions across desktop and mobile platforms.
- Developed cross-platform **React Native applications for Android and iOS**, implementing navigation, onboarding, splash screens, WebView integration, payment-related functionality, and API integration.
- Developed reusable React Native screens and components for **service-booking workflows**, including appointment scheduling, booking management, service-provider listings, and customer-management modules.
- Integrated **REST APIs, Axios, and location-based functionality** into mobile applications while focusing on performance and user experience.
- Worked on **restaurant digital display functionality** using React, including API data transformation and reusable UI components for dynamic menu displays.
- Implemented **offline data handling with IndexedDB** for the restaurant display application and synchronized locally stored menu data when updated API data became available.
- Supported **Android and iOS application builds** using Android Studio and Xcode and assisted with release preparation and deployment activities.
- Investigated and resolved **frontend bugs, UI issues, API integration problems, and cross-browser compatibility issues** during development and testing.
- Participated in **code reviews, sprint planning, Agile/Scrum ceremonies, testing, debugging, and deployment activities**.

KEY PROJECTS

10Mins Guru Website -: *Live-link* *JavaScript · jQuery · HTML5 · CSS3 · Bootstrap*

Client web platform for learners booking one-on-one sessions with experts. Developed responsive, cross-browser-compatible scheduling workflows and optimized usability and performance across desktop and mobile devices.

App Health Monitor -: *React.js · Redux · Context API · Axios · REST APIs · Dashboard*

Internal company React application for monitoring application health status and service availability. Built reusable dashboard components, integrated REST APIs using Axios, implemented alert-notification workflows, and contributed to frontend debugging and performance improvements.

Beerboard -: Restaurant Digital Display

React.js · REST API · IndexedDB · Offline Support · Data Transformation

Client project for restaurant digital displays showing beer names and prices based on configured schedules. Integrated a single API, transformed menu data for reusable React components, stored menu data in IndexedDB for offline use, and synchronized local data when updated API data became available.

ADDITIONAL PROJECTS

Study Tracker -: *Live-link* *Next.js · TypeScript · Tailwind CSS · AI Agent · Free AI API*

- Personal responsive study-tracking web application for managing and monitoring learning progress.
- AI Agent as an AI Tutor that answers questions and explains study topics.
- AI Quiz Generator that creates quizzes from the topics being studied.
- Powered by a free AI API for the tutor and quiz features.
- Live: https://studytrack-frontend-phi.vercel.app/
- GitHub: https://github.com/Appa45/StudyTrackerFE

Utilstop App -: *React Native · REST APIs · Axios · Location-Based Functionality*

Client service-booking app for indoor and outdoor services with appointment scheduling, booking management, service-provider listings, and customer-management modules. Focused on responsive UI, performance, and API integration.

10Mins Guru Mobile App -: *React Native · JavaScript · Stack Navigator · WebView · REST APIs*

Built cross-platform Android and iOS screens for a one-on-one expert session platform. Implemented navigation, onboarding, splash screens, WebView integration, payment gateway functionality, and REST API integrations, and generated Android/iOS builds using Android Studio and Xcode.

OSAN Grows App -: *JavaScript · HTML5 · CSS3 · Bootstrap · EJS*

Developed responsive user-facing web interfaces and reusable UI components for desktop and mobile devices, including inquiry forms and consistent cross-browser experiences.

EDUCATION & LANGUAGES

B.Tech | Geethanjali College of Engineering and Technology | 2015 – 2019

Languages: English (Professional) · Telugu (Native) · Hindi (Conversational)
